

Weather Readings

The purpose of the site is to tell the weather in three different cities, show a gallery, and give a link to storm center

The target audience is the general public looking for a simple weather page in one of these cities.

The color scheme will consist of cool colors, such as black, blue, white, and purple.

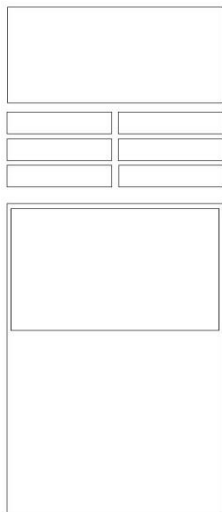

Typography

The only font on the page will be Raleway.

The headings will be a blue color.

The body text will be white.
